## DyeTechs 6900-N

### DESCRIPTION

**DyeTechs 6900-N** is a specially formulated polyethylene based lubricant for use as a denim beaming aid. The product is formulated to reduce adjacent yarn clinging and lend smoothness and lubricity in the beaming process. The handle is described as soft and smooth. **DyeTechs 6900-N** will also enhance fabric resistance to needle cutting during the cut and sew process.

### BENEFITS

**DyeTechs 6900-N** has the following beneficial characteristics.

- Excellent Lubricant
- Reduces Yarn Clinging
- Lends Soft and Smooth Hand
- Enhances Resistance to Needle Cutting
- Compatible with Most Chemicals

### TYPICAL PROPERTIES

|              |                       |
|--------------|-----------------------|
| Color        | Translucent Off-white |
| Texture      | Liquid                |
| Odor         | Mild                  |
| PH           | About 9.5             |
| Solids       | About 25%             |
| Ionic Nature | Nonionic              |

### PREPARATION

**DyeTechs 6900-N** should be added directly to the final rinse bath on the indigo range at the desired dosage.

### APPLICATION

**DyeTechs 6900-N** should be dosed at 1.0 – 3.0% OWB.

### STORAGE

**DyeTechs 6900-N** should be stored in a cool, dry and well-ventilated area.

### HANDLING

Follow good industrial hygiene when handling **DyeTechs 6900-N**. Please refer to the Material Safety Data Sheet for details.

### PACKAGING

**DyeTechs 6900-N** is available in 55-gallon drums, 275-gallon totes and bulk.
